

Tree Cities of the World

Celebrating global leadership in urban and community forestry

Congratulations to the cities recognised in 2020 as Tree Cities of the World.

These cities are demonstrating leadership in management of their urban trees and are serving as part of the solution to many of the global issues we face today. Each city successfully met 5 core standards of urban forest management in order to earn recognition. This recognition is a testament to their commitment to building a healthy city now *and* for the future. Learn more at treecitiesoftheworld.org.
